Shown with Optional Trailer & Folding Hitch

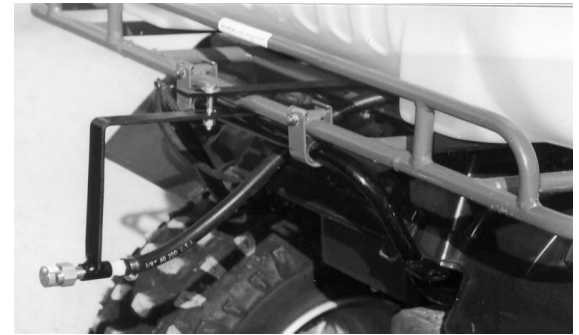

Boominator Boomless Nozzle Kits

FULL SPRAY BOOM KIT

Mounts on rear of ATV, trailer sprayer, or skid. At 24" height nozzle covers 12' swath applying 12 GPA at 4 MPH.

Includes universal mounting bracket, shut-off valve, 8' feed hose, and hose barbs to fit 1/4" or 3/8" handgun hose.

- BIN-F-SS-KIT** FULL SPRAY BOOM KIT W/SS TIPS **\$194.00**
- BIN-F-PS-KIT** PLASTIC FULL SPRAY BOOM KIT **\$ 95.00**

Boominator (Dual) Spray Boom Kit

DUAL - SPRAY BOOM KIT.

Splice dual Stainless steel nozzles into handgun hose to convert handgun sprayer to boom sprayer. Mounts on rear of ATV, trailer sprayer, or skid. Individual valves allow operator to select Left, Right, or both nozzles. At 36" height, each nozzle covers 16' for 32' swath applying 13 GPA at 4 MPH. Includes universal mounting bracket, two shut-off valves, 8' feed hose, and tee for 3/8" handgun hose.

- BIN-LR-KIT** DUAL SPRAY BOOM KIT **\$ 325.00**

Check out our New Line of Aluminum Frame Lawn & Turf Sprayers

55 Gallon 3PTH Handgun Sprayer

A compact handgun sprayer with sturdy formed steel frame and 55 gallon polyethylene tank. Ideal for farm, home, estate and industrial applications.

Features Include:

- In-Line Suction Strainer
- Pressure Gauge
- Single Lever Control Valve
- 25' of 1/2" Spray Hose
- Adjustable Pressure Regulator
- 6-Roller Cast Iron Pump
- Aluminum Trigger Handgun
- Weight: 255lbs

S2P-HG6-55 HANDGUN SPRAYER \$ 1690.00

Pump Option:

- 6500XL Pump in Lieu of 6500C Pump \$ 427.50
- * Recommended for use with Round-Up™ Herbicide

Boom Options:

- SB-2** 2 - Nozzle One Piece Spray Boom \$ 88.00
- * Flood-Jet Tips on 40" Spacing Cover Approx. 6' Pattern
- SB-7** 7 - Nozzle Break-A-Way Boom Assembly \$ 512.95
(Covers 11 Ft Pattern)
- SB-11** 11 - Nozzle Break-A-Way Boom Assembly \$ 615.95
- * Flat Fan Tips with Quick-Jet Diaphragm Boom Fittings on 20" Spacing
- BIN-LR-KIT** Boomless Nozzles Left & Right Kit \$ 360.00

Shown with Optional 7-Nozzle Boom Assy.

110 Gallon 3PTH Handgun Sprayer

Low profile sprayer for larger hand gun applications. Great for Turf Management, Orchard Maintenance & Clean Up Jobs on Ditches and Fence Lines. 110 Gallon polyethylene tank is mounted in a sturdy tubular steel frame.

Features Include:

- In-Line Suction Strainer
- Pressure Gauge
- Single Lever Control Valve
- 25' of 1/2" Spray Hose
- Adjustable Pressure Regulator
- 8-Roller Cast Iron Pump
- Aluminum Trigger Handgun
- Weight: 395lbs

S3P-HG8-110 HANDGUN SPRAYER \$ 2446.25

Pump Option:

- 7560XL Pump in Lieu of 7560C Pump \$ 499.55
- * Recommended for use with Round-Up™ Herbicide

Boom Options:

- SB-7** 7 - Nozzle Break-A-Way Boom Assembly \$ 536.00
(Covers 11 Ft Pattern)
- SB-9** 9 - Nozzle Break-A-Way Boom Assembly \$ 593.00
(Covers 15 Ft Pattern)
- SB-11** 11 - Nozzle Break-A-Way Boom Assembly \$ 634.00
(Covers 18 Ft Pattern)

* Flat Fan Tips with Quick-Jet Diaphragm Boom Fittings on 20" Spacing

Control Valve Option:

Upgrade from Single Lever Control to 8-Way Control \$ 92.00

110 Gallon High Pressure - Fruit & Vegetable Sprayer

This High Pressure Sprayer is designed for disease and insect control.
Used for many crops such as: Strawberries, Peppers & Squash

Standard Features:

- Udor High Pressure Diaphragm Pump
- High Pressure Manual Control Valve
- Adjustable Pressure Regulator
- Liquid Filled Pressure Gauge
- Two Separate Boom Control Levers
- Frame Mounted Pump w/Drive Shaft
- Adjustable Jet Agitation
- High Capacity Suction Strainer
- Break-A-Way Boom Assembly *
- Brass Boom Fittings for High Pressure w/Stainless Steel Tips
- Hi-Volume 1/2" ID, 600psi Boom Hoses
- Large 10" Fill Well & Vented Lid

* Standard Boom Assembly set-up to spray: 3 Beds on 5-6' Centers

S3P-3RP-KAPPA55-110	3 Row Booms, (15gpm Pump)	\$ 5925.00

S4 Series – 200 & 300 Gallon Heavy-Duty Sprayer - Options

Electric Control Option:

Electric remote control provides On/Off Control of sprayer booms, plus control of sprayer pressure from seat of the tractor. Cab mounted control box with swivel mounting bracket is equipped with extra-long switches for master On/Off and Pressure Adjustment, three boom toggle switches and 100 psi pressure gauge. Master switch activates all solenoid valves at once. Three direct acting solenoid valves and electric pressure regulator are furnished with the mounting bracket. A capillary tube supplies liquid to pressure gauge.

(This control is not recommended for liquid nitrogen.)

Add Suffix: 744A-Kit

Price \$ 790.00

BOOM MOUNT ANGLES	SQUARE TUBE BACKFRAME	FORMED HINGE	BRIDGED BOOM ARM
			

The Bridged Boom Back Frame is built from 3"x3" square tubing and includes the boom mounting angles and u-bolts.
 The hinge is formed from 1/2" plate steel and features spring loaded beak-a-way and hydraulic fold brackets.
 Three pieces of 1" square tubing are bridged together to build a sturdy yet lightweight boom arm. Boom mounted shock absorbers soften arm bounce and reduces metal fatigue. Boom arms are available in 12 row, 16 row & 20 row models.
 Please specify nozzle spacing when ordering. Comes standard with Quick-Jet boom fittings & TX-VS spray tips.

12 & 16 Row Boom Assemblies

BB-12	12 Row Bridged Boom Assembly – Metal Only	\$ 5265.00
BB-12C	12 Row Bridged Boom Assembly – Complete with Plumbing	\$ 6210.00
BB-16	16 Row Bridged Boom Assembly – Metal Only	\$ 5405.00
BB-16C	16 Row Bridged Boom Assembly – Complete with Plumbing	\$ 6655.00

20 Row Boom Assemblies

Built heavier than our 12 & 16 row units by using thicker wall back frame material, larger hinges & 1-1/4" square tubing for wider boom arms. Includes: Two shock assemblies mounted on each boom arm with stiff arms in lieu of chains.

BB-20	20 Row Bridged Boom Assembly – Metal Only	\$ 6765.00
BB-20C	20 Row Bridged Boom Assembly – Complete with Plumbing	\$ 8198.00

Bridged Boom Arms Only

BBA-12	12 Row Bridged Boom Arm – 1" Square Tubing (Specify Width)	\$ 645.00 ea

Ground-Driven Liquid Applicators

This Heavy-Duty Trailer Sprayer Utilizes the John Blue Metering Pump to Apply Constant Liquid Rate Per Acre, Even when Ground Speed Varies. The Ratchet Type Clutch on the Metering Pump is used to Stop the Pump for Turn Around and Short Travel. Simple Hand Crank Allows the Operator to Disengage Pump for Road Travel.

Standard Features:

- Rugged Pressed Steel Frame
- Adjustable Wheel Spacing
- High Clearance Axle
- John Blue NGP-7050 Metering Pump (34gpm)
- 9.5Lx15 Tires & Wheels
- Continuous Agitation – 7700N or 9006C-O Pump*
- Adjustable Boom Height
- Spring Loaded Break-A-Way Boom Hinges
- 1-1/4" Square Tubing Spray Boom
- High Volume In-Line Strainer
- In-Line Shut-Off Valve with Viton Seals
- Quick-Jet Diaphragm Boom Fittings
- Heavy-Duty Swivel Jack
- High Capacity EPDM Hose – Choice of Size

* Liquid in Tank is Continuously Agitated by Separate PTO Driven Roller or Centrifugal Pump.

How to Order:

- 1) Select Trailer Model Which Offers Desired Tank Size, Tank Material and Agitation System.
Note: Twin-Jet agitation provides (2) Jet Agitators for Liquid Nitrogen and Clear Liquid Fertilizers.
- 2) Select Boom Option with Offers Desired Swath Width and Nozzle Spacing
- 3) Select Desired Add-On Options to Complete Unit.

Chain Drive & Hydraulic Drive Ditchers

Now... Making Water Furrows in Dry Ground and Draining Wet Potholes is No Problem. Eliminate most shovel Work and Cut More Uniform Ditches with Reddick Chain Drive Ditcher. Designed to Cut a Smooth Ditch that can be Crossed Easily with Harvest Equipment. Combine Headers can remain close to the Ground without Scooping Dirt, as with a Plowed, Drain Furrow. Dig Ditches with a Single or Multiple Passes Using Reddick's Adjustable Skid Plate. For Convenience a Built-In Parking Stand Holds the Ditcher Upright for Easy Connection to Your Tractor

Hydraulic Drive Ditcher • 690 lbs. D7-OS-HYD \$ 4645.00

Specifications:

- Works with Open or Closed Center Hydraulic Systems
- Requires 20 GPM Hydraulic Flow Rate
- 18" Cutter Wheel with 3 Heat Treated Blades
- Heavy-Duty Frame with Cat. II & 3N Hitch Pins
- Soil Shields for even dirt distribution
- Depth Control with Rear Slide & 3-Point Hitch Center Link Adjustments

Off-Set Ditcher with Chain Drive & Clutch • 655 lbs. D6-OS-C \$ 4425.00

Specifications:

- **Cutter Head** – 3 Replaceable Heat-Treated, High Carbon Steel Blades and 3 Thrower Blades
- **Chain Drive** – Heavy-Duty #120 Roller Chain in Oil Bath. Shafts are 1-7/16" Diameter High Carbon Steel
- **A-Frame** – Category I & II Three-Point Hitch
- **Main Frame** – All Welded Heavy-Duty Rectangular Tubing Used for Main Frame & Chain Housing
- **Universal Drive Shaft** – 1-3/8" 6-Spline Coupler for 540 RPM. Telescoping Shaft is Fully Shielded
- **Horse Power** - 60HP Rated PTO & Chain Drive
- **Slip Clutch** – Heavy-Duty Double Disc Clutch for Overload Protection on Drive System

Direct Drive Ditcher

Cleanly Cuts a Uniform Ditch up to 18" Wide and 14" Deep in Just One Pass. Depth can be Adjusted to Your Needs. Soil Shields are Provided to Distribute Dirt Evenly Over a Wide Area. Cutter Head is Equipped with Three Self-Sharpening, Heat Treated Alloy Steel Blades.

Specifications:

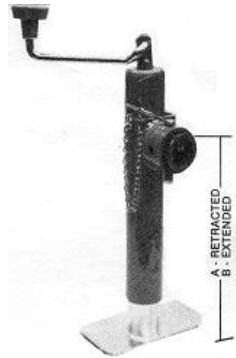

- **18" Cutter Wheel** – (3) Heat Treated Cutter Blades and (3) Thrower Blades
- **Heavy-Duty Box Frame** – Cat. II & 3N Hitch Pins
- **Soil Shields** – For Even Dirt Distribution
- **Depth Control** – Rear Slide & 3 PTH Center Link

Weight: 420 lbs.

D4-C Ditcher with Clutch \$ 3085.00

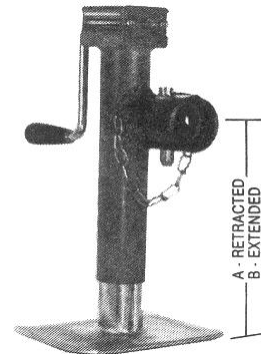

Trailer Jacks

- 5000 Lb. Lift Capacity
- Top Wind Crank with 10" Lift Range
- Swivel Mount with Weld on Collar

This Jack is used on 110-550 Gallon Trailers **VI-020** **\$ 74.50**

- 7000 Lb. Lift Capacity
- Side Wind Crank with 15" Retracted Height
30" Extended Height
- Swivel Mount with Weld on Collar

This Jack Recommended for 1000 Gallon Trailers **VI-550** **\$ 91.60**

Heavy-Duty Nurse Trailer Jacks

- 12,000 Lb. Lift Capacity
- Heavy-Duty Side Wind Crank
- Adjustable Drop Pin Base

This Jack Recommended for 1650 Gallon Trailers **182800H** **\$ 295.00**

Line of Sprayers &
Fumigation Equipment*
www.reddickequipment.com

RF-809 • Little Soil Squirt

LITTLE SQUIRT is a fumigation system that is self-contained and is engineered for safety.

LITTLE SQUIRT is powered by a 12-volt DC explosion-proof motor, to safely handle flammable liquid fumigations under pressure. There is one switch, located well away from the fumigant chemical, to handle all operations, and there is a minimum of lines and hoses in its design.

LITTLE SQUIRT does it all! Fumigant can be transferred from chemical nurse tank safely with NO SPILLING-achieved with dry-disconnect fittings. Efficient pump will transfer 30 gallons in four minutes. Another safety feature are the check valves located at the injection shanks-eliminating any dripping at the ends of rows.

We consider the LITTLE SQUIRT fumigation system to be the first applicator on the market for accurate, efficient fumigation, giving the ultimate in safety. LITTLE SQUIRT is tops in economy with its totally-enclosed, no-spill operating system that can both fill and discharge fumigants with security and comfort for the operator.

LITTLE SQUIRT goes along with the equipment you have-its regulators, strainers, filters, valves, pump, and motor are all on one mount together for easy installation on a tool bar.

LITTLE SQUIRT has quality construction-all the connecting components from the pump are of nickel-plated alloy, stainless steel, or polypropylene. The only pressure hoses are located from the manifold to the shanks, and are rated for four times the working pressure.

LITTLE SQUIRT is easily set-up-there is only one suction hose that connects to the fumigation tank; then connect the hoses to the injector feet. The switch is conveniently mounted on the tractor, and easily connected to the 12-volt power source. Then, pop on the dry quick coupler and fill the fumigation tank.

Disconnect (with no mess) and head to the field!

Little Squirt Accessories:

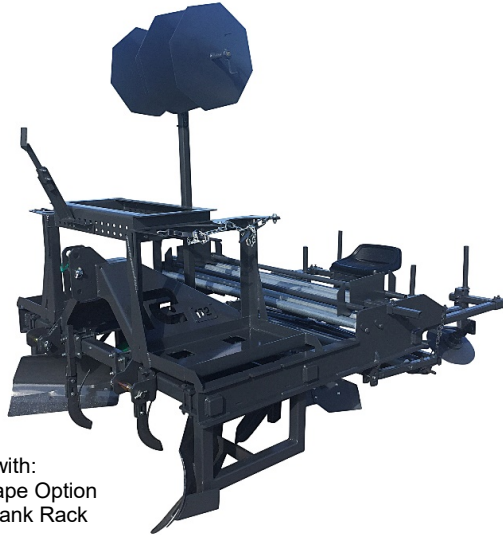

- Pump Base Mounts
- Tank Mounts
- Tubes To Attach To Sub-Soil Shanks
- Fumigation Knives & Holders
- Poly Tanks (55 Gallon – 150 Gallon)

RF809	Little Soil Squirt	\$ 2,376.00

RMC-172 Mulch Layer

Shown with:
Double Drip Tape Option
& Fumigant Tank Rack

Whether you are running a roadside strawberry stand or a multi acre produce operation, Reddick's new line of mulch laying equipment is right for you. We have pulled together some of the best in the industry to totally revamp our line of mulch laying equipment with the focus being set on ease of adjustment.

Features:

- Quality manufacturing with precision laser cut components
- New simplified design for ease of adjustment
- Available in 1,2 or 3 row configurations
- Available in varying row spacing
- Adjustable gathering blades
- Adjustable UHMW lined press pan
- Press pan outfitted with kick out wings
- Adjustable four axis press wheels and covering discs
- Adjustable plastic roll bed to accommodate plastic widths up to 66"
- Operator seat mounted on the rear for better access to components
- Crown roller for a more defined bed

Starting at the front of the machine you will notice a completely redesigned hitch for improved strength and overall appearance. The new lower hitch points are now adjustable to ensure no side play is allowed in the lift arms. The hitch is predrilled to receive the optional tank racks and drip tape reels. Moving back, you can see that entire frame has been redesigned with ½ inch plate sub frame assemblies. This feature allows for improved strength as well as a decreased manufacturing time, allowing us to get your new layer to your farm quicker than ever. Our press pans are outfitted with kick out wings that create that perfect "J-channel" for the plastic tuck. With this time tested method, we are able tuck our plastic in tighter and deep enough to withstand the abuses of the seasons. Adjustable roll racks will get you in the field with a variety of plastic widths all the way up to 66". A new pin design on the roller axles will have you back in operation in no time when bushings need to be serviced. The rear of the machine has seen the most extensive changes. The new independent suspension design allows for all press wheels and covering discs to function separately from one another. This will ensure that contact with the plastic and the soil is maintained in any field conditions.

**Our method is simple.
Our machines are simple.**

Additional Options:

- Extra 3rd Row Tray Rack (Adds 18 Additional Trays)
- Extra (2) Seat Assembly (To Seat 4 People Total)
- Additional Planting Wheels – Standard Sizes:
12", 15", 18", 24", 30", 36", 42", 48", & 60"
- Planting Wheel Guide

Water Wheel / Transplanter

RMC-105 Mulch Lifter

This mulch lifter is designed to lift various sizes of mulch with minimum adjustments. The disk coulters are designed to cut vines or debris in row middles and slice soil along lifting edge. The main frame is made of 4"x4" square tubing and its extra heavy lifter shanks are made with a shear bolt design. Lifter plates on under cutter blades are covered with a HDPE liner for wear protection.

Specifications:

- Main Frame is 4"x4" Square Tubing with Quick Hitch Ready 3-Point Hitch
- Two Heavy-Duty 18" Coulters Mounted on a Double Bearing Spindle
- Adjustable Width Coultter Blades & Lifter Shanks

Approximate Weight – 950lbs

Recommended Tractor for this Equipment:
 2 Wheel Drive: 75Hp / 4 Wheel Drive: 50Hp

100 Gallon Fiberglass Skids

Reddick Skid sprayers are as versatile as they are rugged. Designed and built to provide years of trouble-free use with minimum maintenance. Makes an ideal unit for commercial pest control operators, golf courses, and lawn care professionals.

Standard Features:

- Chemical Resistant Premium Fiberglass Tanks
- Large Fill-Well for Easy Access
- Corrosion Resistant T6061 Aluminum Frame – *Never Rust™*
- Remote Mounted Suction Strainer & Tank On/Off Valve
- All Fittings are Glass Reinforced Poly, Brass or Stainless Steel
- Long Life, Easy Start, Fuel Efficient Honda Engines
- Adjustable High Pressure Jet Agitation for Chemical Mixing
- Shock Resistant Liquid Filled Pressure Gauge
- Easy Access Frame for Maintenance & Service
- Factory Pressure Tested with OEM Parts Registration

Multi-Tank 300/100/50 Combo Poly Skids

Reddick Skid sprayers are as versatile as they are rugged. Designed and built to provide years of trouble-free use with minimum maintenance. Makes an ideal unit for commercial pest control operators, golf courses, and lawn care professionals.

Standard Features:

- Chemical Resistant Polyethylene Tanks 5 Year UV Rated
- Large Fill-Well for Easy Access
- Corrosion Resistant T6061 Aluminum Frame – *Never Rust™*
- Remote Mounted Suction Strainer & Tank On/Off Valve
- All Fittings are Glass Reinforced Poly, Brass or Stainless Steel
- Long Life, Easy Start, Fuel Efficient Honda Engines
- Adjustable High Pressure Jet Agitation for Chemical Mixing
- Shock Resistant Liquid Filled Pressure Gauge
- Easy Access Frame for Maintenance & Service
- Factory Pressure Tested with OEM Parts Registration
